The day after Max got back from his CGFT camp, the kids received their school t-shirts. (Who would have thought it would be an international clothing brand?) The kids were so excited and pretty proud to show off their new shirts. The teachers were almost as excited as the kids. We headed down to the school on Wednesday. On arrival, I was shocked to find they wanted to be part of the group photo. I assured them they didn't have to do that. They begged me to take a group photo so we could send it to their families and sent me off to my car with a group photo taken before I left. Of course they had asked me to take their group photo, but they would have made a mess of it, so I had to bite my tongue and take their picture. Ah well. It was a great school, but the kids had loved their school before, so I'm glad we're supporting the new school.Back to the group photo. My son and his friend from school were so proud to show off their new shirts. Here are my boys, Max in his new school shirt and Kai in his new school shirt. The kids all love their new shirts. We headed home with enough t-shirts for the entire school to wear the next day. Ah well. We seem to have no storage space for these lovely garments.My friend Rachel and I took the kids to Coles to buy their new clothes. They were so excited to help me choose some new school clothes for them. Max particularly liked the sound of the Ninja Turtle t-shirts.
