HyperMotion Technology improves gameplay speed and responsiveness, making you more aware of what's going on in the match and how to play it. You can create your own moves by tapping the left stick, and a new "Manage Defenses" mode allows you to switch the attacking and defensive line quickly. HyperMotion Technology also introduces FIFA "Move Kits", the new way to switch formations mid-game. If you're playing as a wingback, defender or 'number 10', you'll be able to switch formations with one button or keyboard shortcut to create an attacking partnership with the right partner. For example, if you're playing as a number 10 and in possession on the left flank, pressing the left-stick will enable you to pass to the central area of the pitch for your full-back, and then press right-stick to pass to the striker. This new formation switching makes it faster and easier to position yourself on the pitch in a variety of playing styles. The FIFA Championship Edition features a unique, game-changing experience that brings the special FIFA Championship feel to all FIFA modes - Custom, Team, and Seasons. Every FIFA Championship match is played with a single, high-intensity focus, giving you the thrill of true competitive football just like the World Cup. *HyperMotion® and FIFA Championship Edition content and features are subject to the acceptance of EA's Privacy & Cookie Policy and Online Privacy Policy, located at www.ea.com/privacy-statement and www.ea.com/cyber-security, respectively. *The FIFA Championship Edition is a bonus for purchasing the game. All game content and features can be played by themselves or together. *FIFA 22 includes Champions Mode, which offers you the opportunity to play through a Season of the World's greatest clubs in FIFA modes. Pricing and content subject to final verification. *Minimum hardware requirements may apply. **FIFA 22 delivers all four of EA SPORTS Season modes - Squad, Manager, Online Seasons and Online Leagues - as well as all future FIFA 20 content and features (e.g., My Player, Pro Clubs,

My Club) and future Seasons, Leagues and training drills as they are released. *Online Seasons are not available in all territories. *If you've purchased a FIFA

What's new in Fifa 22:

- **Brand new heading system is now more responsive and easier to control.**
- **New physics system and controls allow the ball feel more natural on the field.**
- **Ball is decelerated for quicker decision making and more accurate passes.**
- **New dribbling controls allow players to use their teammates in the most effective way.**
- **New animations system adjusts and controls mechanical likeness and physical limits of each player.**
- **New ball flight control allows you to manipulate the orientation of the ball in the air.**
- **New Manager movements help you to train & build your team on the training pitch and prepare your players for new challenges.**
- **The response times in the game have been greatly reduced.**

Biggest issue in FIFA games: the ball going to the wrong team when handling. The new system works a lot better: it increases speed & responds better.

A million details have been adjusted by the new animations system.
