Download pdf of lyc klasei 4th class IITK book Q: Importing VBA TextBox to external workbook I am trying to import VBA textboxes in this external workbook to this current workbook. The problem is that the values I insert into the textboxes don't actually show up in the workbook. The following is the code I use to try and import the values. Sub ImportValues() Dim wbIn As Workbook, wbOut As Workbook Set wbIn = Workbooks("myworkbook.xlsm") Set wbOut = ThisWorkbook With wbIn wbIn.Sheets(1).Textboxes.Add(Range:=Target.Range) wbIn.Save wbIn.Close End With With wbOut wbOut.Sheets(1).Textboxes(i).Value = ActiveSheet.Range("A1").Value wbOut.Save wbOut.Close End With End Sub A: The below code works for me. Try to declare a worksheet from the current worksheet. Sub ImportValues() Dim wbIn As Workbook, wbOut As Workbook Dim wsIn As Worksheet, wsOut As Worksheet Set wbIn = ThisWorkbook Set wsIn = wbIn.Sheets(1) Set wbOut = Workbooks("myworkbook.xlsm") With wbIn wsIn.Textboxes.Add Range:=.Range(.Cells(1, 1),.Cells(1,.Cells.Count)) wsIn.Save wsIn.Close End With wsOut = ActiveSheet With
