end software prtscr is the most widely used keystroke.

prtscr is used to print screen. you can copy and paste it into the different programs. especially when you have notepad open, it is very easy to do it. you can use it to save your games into dvd format as well.

print screen is also called prtsc when you open prtsc.exe file, you will see the preview of what the system will show on the screen. if you have any problem, you can right click on the prtsc.exe program

---

file to delete it. click on the windows key + print screen on your keyboard and copy the printed screen into the program. please proceed to the game start menu or simply click "start" and scroll to the game you want to install. click on the game shortcut and then click on "edit" option. copy and paste the screenshot you want to use into the other program, save it and you are done. ( to copy and paste, a highlighted item is pressed and the cursor moves to the source of the highlighted item, after a couple of seconds, press ctrl

---

+ a and ctrl + c to copy and ctrl + v to paste. your clipboard may contain the copied content, in case you want to paste it again for editing.) gps map is a music and video application. it is a map application on the desktop. it lets you search, see routes, and plans. you can even view your friend's location. that is what most people get familiar with when they hear or talk about gps. the way this app works is that you enter your starting point and destination (the map will connect your starting point with your destination), and

---

then the app will track your location. as you move around, your phone will tell you your current location.
