

It is possible to order “subtitulado” or “tamalengo” subtitles from Video Online Spain or Subtitles.es for free. Most for-profit Dvd subtitles options may also offer a similar service, which is most likely to be free. It is always a good idea to try asking around about getting free subtitling if you are unfamiliar with the above website services. Its always a good idea to make sure any English-language movies you watch are also in English. This is even more important if the movie is high-quality and/or long for a quick and easy learning experience. That way you wont be watching an hour and half of movie with audio and barely a word of subtitles! If it is a really good movie, you can find an English version somewhere, but almost never a movie you watch for the first time with English subtitles. Just as with content with multiple audio options, the downloadable version of the video isnt as flexible. Watch Curious George (Y encontrado fuego) with English, Spanish and Portuguese subtitles or the folktale Sandman (Este oeste) with Spanish and Arabic subtitles. Itll give you a sense of how the language works, and you can even practice your listening skills. Now for the fun part: pick the language you want to learn. Either click on the language you want to download (or upload) to learn, or pick them all. Youll then be redirected to a language learning dashboard where you can quickly see the number of videos you have as well as their availability. You can also watch Moana (Moana le peche) with english subtitles.
